# Conclusion

## Customer Themes

Most people have said that the reason they're unhappy about the decision to change the hours of the branch is that they will have to travel further to do their banking or the or the new opening hours are not convenient to them

Our customers have been concerned about what will happen to the staff who work at the branch on the days that the branch is closed and if their working hours would be reduced

-----  
We have undertaken the following activities in response to the key areas of concern:

- Our customers can access their banking at the local Post Office, through our telephone, online or using our mobile banking services. Our local team have spoken with customers about their different needs, offered help and explained more about our alternative banking services in the local area.
- The nearest RBS branch is 2 miles away.
- We have worked closely with the staff at the branch to ensure the best outcomes for their personal circumstances. In most cases on the days that the branch is closed the staff will be working as usual from another nearby branch

Following our community engagement and impact assessment, we are confident that we have appropriate services in place to ensure our customers have sufficient access to banking locally.

Royal Bank of Scotland Nottingham Mapperley branch will therefore change their opening hours as planned on 5<sup>th</sup> June 2017. Our branch staff and Joanne Vickerton our local Bank Manager are available to answer any further questions that our customers or the community may have.
