SUMMARY

This summary has been prepared in accordance with Article 5(2) of Directive 2003/71/EC and should be read as an introduction to the Prospectus prepared by the Company concerning the Preference Shares referred to below. Any decision to invest in any Preference Shares should be based on a consideration of the Prospectus as a whole. Where a claim relating to the information contained in the Prospectus is brought before a court in a Member State of the EEA, the claimant investor might, under the national legislation of such Member State, be required to bear the costs of translating the Prospectus before the legal proceedings are initiated. Civil liability attaches to the persons responsible for this summary, including any translation thereof, but only if it is misleading, inaccurate or inconsistent when read together with the other parts of the Prospectus.

Words and expressions defined in "Definitions" set out in Parts III and X of this Summary and Securities Note have the same meanings in this summary.

Capitalisation and Indebtedness

At the date of this document, the issued share capital of the Cell is two Ordinary Shares (issued at an issue price of £1.00 each), which are beneficially held by The Maser Trust.

As of the date of this Summary and Securities Note, neither the Cell nor the Company (on behalf of the Cell) has any outstanding, or created but unissued, loan capital (including term loans) or any outstanding mortgages, charges, debentures or other borrowings or other indebtedness (whether guaranteed, unguaranteed, secured, unsecured, indirect or contingent).

Investment Objective

The investment objective of the Cell is to provide capital growth by providing the Shareholders in the Cell with an exposure to the positive performance of the RBS UK Navigator Index (GBP) (the "**Index**") and to return their initial investment on Redemption Date.

There is no guarantee that the investment objective of the Cell will be achieved.

The Contract

The Company will seek to achieve the investment objective of the Cell by entering into (on behalf of the Cell) an investment contract with the Counterparty in, or substantially in, the form of an ISDA Master Agreement as supplemented by the Confirmation (the "**Contract**"). Under the Contract, the Company (on behalf of the Cell) will pay to the Counterparty on or around the Investment Date an amount equal to the Net Proceeds minus the Upfront Amount and the Counterparty will pay to the Company on behalf of the Cell (or as the Company on behalf of the Cell directs) within 5 Business Days before the Redemption Date an amount equal to the total aggregate Redemption Amount in respect of the Preference Shares. Shareholders can generally expect to receive the Redemption Amount within 5 Business Days following the Redemption Date.

The Counterparty will not provide collateral to meet its obligations under the Contract and the Contract shall therefore be unsecured.

The Preference Shares

The key features of the Preference Shares are:

- The Preference Shares are designed for investors who expect that the Final Index Level will be above the Initial Index Level.

- Shareholders' principal invested in the Preference Shares shall be protected if held until the Redemption Date.
- The Preference Shares are sterling-denominated and have a fixed term of 5 years and one week.
- The Preference Shares will not pay dividends.
- An application has been made to list the Preference Shares on the CISX.
- The Preference Shares will be eligible for settlement and transfer through the CREST settlement system.
- The Contract is the Cell's sole asset. The Contract is unsecured.
- An investment in the Preference Shares will incur fees and expenses.

Offer Period

10 May 2010 to 16 July 2010.

Subscription Price

£1.00 per Preference Share

Maturity Protected Price

£1.00 per Preference Share

Minimum Application Size per Applicant

£20,000 (20,000 (twenty thousand) Preference Shares)

Suitability

An investment in the Preference Shares may be suitable for investors (including retail and institutional investors) who expect that the Final Index Level of the RBS UK Navigator Index will be higher than the Initial Index Level and who understand that the Index is a rule-based strategy linked to the Excess Return UK 100 Strategy (GBP) (“**ER Asset**”).

Applicants should determine the suitability of an investment in Preference Shares in light of their own circumstances, in particular, Applicants should:

- (i) have sufficient knowledge and experience to make an evaluation of an investment in Preference Shares and the merits and risks of investing in Preference Shares;
- (ii) have sufficient financial resources and liquidity to bear all of the risks of an investment in Preference Shares, including the risk of loss of such investment and, where their currency is not sterling, any currency risk; and
- (iii) meet the Minimum Application Size.

Fees and Expenses

The Company shall use the Upfront Amount (being the aggregate Preliminary Charge) to pay Cell Expenses.

Certain expenses will also be paid by the Promoter on behalf of the Company pursuant to the Promoter Agreement.

Risk Factors

The risks associated with an investment in the Preference Shares include the following:

- The Preference Shares provide Shareholders with a positive return on their investment only if the Final Index Level (which is an average figure taken over the final 13 months of the term) of the RBS UK Navigator Index is greater than the Initial Index Level. If the Final Index Level is equal to or lower than the Initial Index Level, Shareholders will receive a Redemption Amount equal to the Maturity Protected Price for each Preference Share they hold. For more information regarding the calculation of the Redemption Amount, see Part VI of this Summary and Securities Note under the heading "*Defined Investments PCC: Navigator 1 PC Redemption Amount*".
- Shareholders will not be entitled to redeem any of their Preference Shares prior to the Redemption Date. However, the Shareholders may dispose of their Shares if a secondary market develops but there is no guarantee that such a market will develop or, if such a market will be liquid or illiquid.
- Where the Shares are subject to a Mandatory Early Redemption, the Mandatory Early Redemption Amount payable to Shareholders may be less than the Redemption Amount that would have been payable had the Shares been redeemed on the Redemption Date.
- The Contract is unsecured, therefore the Preference Shares are subject to the credit risk of the Counterparty.
- Changes in the tax status or other tax changes affecting the Cell, the Company or Shareholders.
- An investment in the Preference Shares is not the same as a direct investment in the RBS UK Navigator Index and does not confer any legal or beneficial interest in the RBS UK Navigator Index or its constituents.
- The Preference Shares may be affected by a number of interrelated factors, including economic, financial and political events in Jersey and elsewhere, including factors affecting capital markets generally.

The risks associated with the Company include the following:

- The Company may incur liabilities which are not attributable to a single given cell but which may affect more than one cell.

- It is possible that the law of a jurisdiction other than Jersey may not recognise the nature of protected cell companies as intended under the Law. The Jersey protected cell company structure is untested in any court. It is unknown whether courts in other jurisdictions would recognise the protected cell structure and the separate integrity of cells.

SECURITIES NOTE

PART I — RISK FACTORS

Before making an investment decision with respect to the Preference Shares, Applicants should carefully consider all of the information set out in this Summary and Securities Note and the Registration Document as well as their own personal circumstances. Applicants should have particular regard to, among other matters, the considerations set out under the heading "Risk Factors" in the Registration Document and the statements set out in this Part I. The risk factors referred to in the Registration Document and in this Summary and Securities Note, alone or collectively, may reduce the return on the Preference Shares and could result in the loss of all or a proportion of a Shareholder's investment in the Preference Shares. Additionally, there may be other risks that an Applicant should consider that are relevant to his, her or its particular circumstances.

Risks Relating to the Index

The Index follows a proprietary investment strategy that operates on the basis of pre-determined rules.

No assurance can be given that the investment objectives on which the Index is based will be successful or that the Index will outperform any alternative strategy that might be employed.

The Index's exposure to the ER Asset is purely notional. There are no assets to which any person is entitled or in which any person has any ownership interest or which serve as collateral for any investment product related to the Index or ER Asset. In particular, Shareholders will not have any rights in respect of the ER Asset, or its constituents.

The Index Calculation Agent is under no obligation to continue the calculation, publication and dissemination of the Index. The Index may be terminated at any time by the Index Sponsor. Should the Index cease to exist, this may have a negative impact on the return on any investment in Preference Shares.

The methodology and rules relating to the Index may be amended, modified or adjusted from time to time by the Index Calculation Agent and/or the Index Sponsor. Any such amendment may have an adverse effect on the level of the Index and may be implemented without the consent of or notice to Shareholders.

The Index's objective is to track a risk-stabilised, long-short investment strategy which is linked to the ER Asset. The long-short investment strategy uses average closing levels of the ER Asset to determine market trends in the following month and based on these trends, the Index will either go "long" or "short", either 125% or 75%, on the ER Asset. The result of which provides leveraged exposure to the ER Asset depending on these trends. This leverage may have the effect of magnifying losses of the ER Asset.

One of the Index's features, the risk stabilisation technique, is to protect against the effects of volatility. Volatility is a measure of the amount by which the price of an asset deviates from

its mean over a period. The greater the magnitude of the price movements, the higher the volatility. The Index's exposure, or dynamic participation, to the ER Asset is daily adjusted depending on the realised volatility: in periods of higher volatility, this feature should generally soften the effect on market falls but constrain the benefits of market rises.

Potential conflicts of interest may exist in the structure and operation of the Index or ER Asset and the course of the normal business activities of the calculation agent of either the Index or the ER Asset and/or the index sponsor of either the Index or the ER Asset and any of their respective Affiliates or subsidiaries or their respective directors, officers, employees, representatives, delegates or agents (each a "**Connected Person**").

During the course of their normal business, a Connected Person may enter into or promote, offer or sell transactions or investments linked to the Index, ER Asset. Such activity may or may not have an impact on the level of the Index and/or ER Asset but Applicants should be aware that a conflict of interest could arise where anyone is acting in more than one capacity, and such conflict may have an impact, positive or negative on the level of the Index and/or the ER Asset. Neither the calculation agent nor the index sponsor of either the Index or the ER Asset nor any other Connected Person has any duty to consider the circumstances of any individuals or entities when participating in such transactions or to conduct themselves in a manner that is favourable to anyone with exposure to the Index or ER Asset.

The Final Index Level is an average of the levels of the Index taken over 13 dates. Averaging may limit falls in the Index over that period but may inversely reduce the benefits of a rise of the Index.

The level of the Index may go down as well as up and past performance is not a guarantee of future performance.

Market Risks

Before buying Preference Shares, Applicants should carefully consider the behaviour of the Index and have in mind that not only economic factors such as interest rate, volatility but also geographical and political factors may affect the Index.

Preference Shares

The Preference Shares provide Shareholders with a positive return on their investment only if the Final Index Level of the RBS UK Navigator Index is greater than the Initial Index Level. If the Final Index Level is equal to or lower than the Initial Index Level, Shareholders will receive a Redemption Amount equal to the Maturity Protected Price for each Preference Share they hold. For more information regarding the calculation of the Redemption Amount, see Part VI of this Summary and Securities Note under the heading "*Defined Investments PCC: Navigator 1 PC Redemption Amount*".

The Preference Shares are designed to return to the Shareholders their original investment regardless of the Index's performance only at maturity. Shareholders will not be entitled to redeem any of their Preference Shares prior to the Redemption Date. There is no guarantee that there will be a secondary market for the Preference Shares and if there is, if such market

will be liquid or illiquid. The price at which the Preference Shares can be disposed of (if a buyer can be found) may not reflect the value of the Contract, which is the only asset of the Cell and to which rights of Shareholders are restricted in accordance with the Specific Terms and Conditions of the Preference Shares. Such valuation may be affected by fluctuations in, among other things, the credit ratings of the Counterparty, price volatility risk, interest rate risk and dividend yield risk which, whilst they may not affect the ability of the Company to pay the Redemption Amount per Preference Share on behalf of the Cell, they may affect the market price, at any time, of the Preference Shares prior to the maturity.

Where the Shares are subject to a Mandatory Early Redemption, the Mandatory Early Redemption Amount payable to Shareholders may be less than the Redemption Amount that would have been payable had the Shares been redeemed on the Redemption Date.

An investment in the Preference Shares is not the same as a direct investment in the RBS UK Navigator Index and does not confer any legal or beneficial interest in the RBS UK Navigator Index or its constituents.

Although the Subscription Price, Issue Price and the Maturity Protected Price are each £1.00 per Preference Share, the Preliminary Charge of between £0.05 and £0.07 inclusive per Preference Share will be used by the Company (on behalf of the Cell) to pay Cell Expenses. The Company (on behalf of the Cell) will therefore only invest the remainder of such Issue Price (i.e. between £0.93 and £0.95 inclusive per Preference Share) pursuant to the Contract. The value of Preference Shares may reflect this.

Risk on Counterparty

Applicants should note that the sole assets of the Cell will comprise the obligations owed to the Company (on behalf of the Cell) by the Counterparty in respect of the Contract. Any assets or arrangements which the Counterparty acquires or enters into, to hedge its obligations under the Contract do not form part of the assets of the Cell.

The investment objective and any payment by the Company (on behalf of the Cell) in respect of the Preference Shares are dependent on the performance by the Counterparty of its obligations under the Contract. The Preference Shares are therefore subject to, among other risks, the credit risk of the Counterparty. Accordingly, if the Counterparty defaults or for any reason does not make the anticipated payment that it is obliged to pay to the Company (on behalf of the Cell) under the Contract, there could be a shortfall in the value of the assets of the Cell and, consequently, Shareholders may not receive the full Redemption Amount anticipated by this Summary and Securities Note.

The Counterparty will not provide collateral in respect of its obligations under the Contract. The Contract is therefore unsecured.

None of the Company, the Cell, the Custodian, the Administrator, the Secretary, the Listing Sponsor, the Registrar and Transfer Agent or the Corporate Administrator purports to be a source of information or credit analysis with respect to the Counterparty. Save as disclosed in this Summary and Securities Note, none of the Company, the Cell, the Custodian, the Administrator or the Corporate Administrator (a) has provided or will provide Applicants with

any information or advice with respect to the Counterparty; or (b) makes any representation as to the credit quality of the Counterparty.

Neither the Counterparty nor any other person, including any other cell of the Company has any obligation to the Shareholders for payment of any amount due in respect of the Preference Shares.

Determinations in Relation to the Contract

The Contract to be entered into by the Company (on behalf of the Cell) as part of the arrangements required to fund the Redemption Amount per Preference Share will confer on the Calculation Agent, a discretion (to be exercised in good faith and in a commercially reasonable manner) in making certain calculations and determinations that may from time to time be required. The exercise of such discretion in the making of any calculations and determinations may adversely affect the price in any secondary market of the Preference Shares and the Redemption Amount payable in respect of the Preference Shares. Without limitation to the generality of the foregoing, the Calculation Agent has discretion in relation to determining whether a Market Disruption Event exists on a Scheduled Trading Day and, if applicable, the level of the Index for such Scheduled Trading Day, as applicable, pursuant to the disruption fallbacks.

Early Termination of the Contract and Mandatory Early Redemption of the Preference Shares

The Contract is expected to be entered into upon terms which allow the Contract to be terminated in certain circumstances. Any Early Termination Payment under the contract, even if recovered by the Company (on behalf of the Cell), and reinvested, may result in a lower return than would have been the case if the Contract had continued and been performed up to the Redemption Date. This may affect the ability of the Company (on behalf of the Cell) to pay the Redemption Amount.

Where the Directors have determined to reinvest any such Early Termination Payments in alternative investments, this may result in a lower return than would have been the case if the Contract had continued and been performed up to the Redemption Date. This may affect the ability of the Company (on behalf of the Cell) to pay the Redemption Amount.

Status

The Preference Shares are unsubordinated and unsecured obligations of the Cell and rank *pari passu* without any preference among themselves. Neither the Counterparty nor any other person, including any other cell of the Company has any obligation to the Shareholders for payment of any amount due in respect of the Preference Shares.

Realisation of Investment

An investment in the Preference Shares should be viewed as a fixed term investment. Shareholders will not be entitled to require the Cell to purchase or redeem the Preference Shares at any time prior to the Redemption Date. Any Shareholders wishing to dispose of

their Preference Shares prior to the Redemption Date may normally only do so by means of a transfer or sale of such Preference Shares on any secondary market which may develop. The Royal Bank of Scotland plc ("**RBS**") may establish a secondary market but will not provide any guarantee to investors that it will do so. Shareholders will be made aware that the price offered will incorporate a number of risk factors and as such may not reflect the Net Asset Value of the Cell. It is likely that the price offered will be somewhat below the Net Asset Value of the Cell.

It is not possible to predict whether any trading market for the Preference Shares will develop or, if it does, the price at which the Preference Shares will trade in any secondary market or whether any such market will be liquid or illiquid. To the extent that there is no liquid market in the Preference Shares, a Shareholder may have to wait until redemption to realise the value of its investment.

Liability for Expenses

As detailed in the Registration Document, pursuant to the Promoter Agreement, the Promoter shall either pay on behalf of the Cell, or reimburse the Cell for certain specified service provider fees (reasonably and properly incurred) ("**Agreed Scope Expenses**"). The Promoter shall also either pay on behalf of the Cell, or reimburse the Cell for other costs fees and expenses (reasonably and properly incurred) up to a capped amount of £100,000. The Promoter may, at its absolute discretion, pay or reimburse other costs, fees and expenses. Therefore, once the Cell has expended the Upfront Amount, any costs, fees or expenses of the Cell that are not paid or reimbursed by the Promoter under the Promoter Agreement (including costs, fees and expenses that are not Agreed Scope Expenses which, either are not reasonably and properly incurred by the Cell or which, in aggregate exceed the cap of £100,000) will be paid by the Company (acting on behalf of the Cell) out of the assets of the Cell, depleting the assets available for payment of the Redemption Amount. Consequently, the Company (on behalf of the Cell) may be unable to pay the Redemption Amount in full to Shareholders.

Risk of Cancellation

The Directors may, in their absolute discretion, cancel the offer and issue of Preference Shares at any time prior to the day on which Preference Shares would otherwise be admitted to listing. If such a cancellation occurs, all application monies for the Preference Shares will be returned (without interest) to each Applicant at the Applicant's risk by no later than 30 days after the date of such cancellation.

Conditionality of Offer

The Offer is conditional on the Company (on behalf of the Cell):

- (i) having received the approval of the CISX for the Preference Shares to be admitted to the Official List of the CISX (subject only to issue); and
- (ii) having entered into (or the Directors being satisfied that the Company is reasonably likely to be able to enter into) the Contract (on behalf of the Cell) on terms that the

Directors, at the time that such Contract is entered into (or, if earlier, on the Issue Date), consider to be such as to enable the Cell to meet its investment objective.

If any of these conditions are not satisfied (or in the case of (ii) above, waived by the Directors, in their sole discretion) in respect of the Preference Shares, the Cell shall not issue any Preference Shares pursuant to the Offer and the application monies for the Preference Shares shall be returned (without interest) to each Applicant at the Applicant's risk by no later than 30 days after the date the Offer Period closes.

Hedging Activities of the Counterparty and Affiliates

The Counterparty or its Affiliates may carry out hedging activities related to the Contract (including, without limitation, purchasing and disposing of Preference Shares) but will not be obliged to do so. Certain of the Counterparty's Affiliates may also purchase and/or sell Preference Shares on a regular basis as part of their broker-dealer businesses or may otherwise deal or hold positions in such Preference Shares or derivative instruments linked to such Preference Shares or the issuers of them. Any of these activities could potentially affect the level of the Index and/or the value of the Preference Shares.

Actions or omissions of the Counterparty or its Affiliates may adversely affect the rights of the Company, the Cell and/or the value of the Preference Shares, including actions or omissions that may give rise to an adjustment to the terms of, or to early termination of, the Contract.

Potential Conflict of Interest

The Royal Bank of Scotland plc (or its Affiliate or delegate) will be the Calculation Agent for the purposes of the Contract. The Calculation Agent will have discretion (acting in good faith and in a commercially reasonable manner) to make certain calculations and determinations under the Contract and shall also be responsible for calculating the Redemption Amount. The exercise of such discretion in the making of any calculations and determinations may adversely affect the value of the Preference Shares, the price in any secondary market of the Preference Shares and the Redemption Amount payable in respect of the Preference Shares.

Taxation Factors

Any change in the tax status of the Company or the Cell, or in taxation legislation in either Jersey or the United Kingdom, could affect the value of investments held by the Cell or the Cell's ability to achieve its investment objective and/or alter the post-tax returns to Shareholders. Statements in this document concerning the taxation of UK Shareholders are based on current UK and Jersey tax law and practice, which are subject to change that could adversely affect the ability of the Cell to meet its investment objective.

Transactions involving the Preference Shares may have tax consequences for potential purchasers which may depend, amongst other things, upon the status of the potential purchaser and laws relating to transfer and registration taxes. No representation is made by the Company (on behalf of the Cell) as to the tax consequences for any person of acquiring, holding or disposing of any Preference Shares or any other transaction involving any

Preference Shares. Applicants who are in any doubt about such matters or any other tax issues relating to the Preference Shares should consult and rely on their own tax advisers.

PART V — THE OFFER

Under the Offer, The Royal Bank of Scotland plc (or its Affiliate or delegate) as Applicant may apply for Preference Shares. The Preference Shares will be offered pursuant to the Offer and issued and allotted on a fully paid basis only.

Subscription Price

The Preference Shares are sterling denominated.

Under the Offer, Applicants may apply for Preference Shares at the Subscription price (£1.00 per Preference Share). The Preference Shares will be issued at the Issue Price of £1.00 each.

Minimum and Maximum Offer Size

A minimum of 5 million Preference Shares in aggregate will be made available under the Offer.

A maximum of 250 million Preference Shares in aggregate will be made available under the Offer.

The Net Proceeds of the Offer (being the aggregate Issue Price of all Preference Shares) are expected to be £5,000,000 if the minimum number of Preference Shares are issued and £250,000,000 if the maximum number of Preference Shares are issued.

The Offer is not underwritten and the number of Preference Shares available under the Offer should not therefore be viewed as indicative of the number of Preference Shares that will be issued pursuant to the Offer.

Minimum Application Size per Applicant

20,000 (twenty thousand) Preference Shares.

Offer Period

The Offer for Preference Shares will open at the time determined by the Directors on the Opening Date and close at noon (London time) on the Closing Date or such earlier or later date as the Directors may agree and notify to the CISX. The basis of allocation under the Offer is expected to be announced on the Allocation Date or such earlier or later date as the Directors may agree.

No Preference Shares of this tranche of Preference Shares will be offered for sale after the Closing Date (subject to the Directors' above-mentioned discretion to extend or shorten the Offer Period). The Directors on behalf of the Cell may reject any application in respect of the Offer in their absolute discretion.

Multiple applications under the Offer will be accepted.

Conditions of Offer

The Offer is conditional upon the Company (on behalf of the Cell):

- (i) having received the approval of the CISX for the Preference Shares to be admitted to the Official List of the CISX (subject only to issue); and
- (ii) having entered into (or the Directors being satisfied that the Company (on behalf of the Cell) is reasonably likely to be able to enter into) the Contract on terms that the Directors, at the time that such Contract is entered into (or, if earlier, on the Issue Date), consider to be such as to enable the Cell to meet its investment objective.

If any of these conditions are not satisfied (or in the case of (ii) above, waived by the Directors, in their sole discretion) in respect of the Preference Shares, the Cell shall not issue any Preference Shares pursuant to the Offer and shall return the application monies (without interest) for such Preference Shares to each Applicant at the Applicant's risk by no later than 30 days after the date that the Offer Period closes.

Cancellation of the Offer

The Directors reserve the right, in their absolute discretion, to cancel the Offer and the issue of the Preference Shares at any time prior to the day on which the Preference Shares would otherwise be admitted to the Official List of the CISX. If such a cancellation event occurs, all application monies relating to applications for Preference Shares under the Offer will be returned (without interest) to each Applicant at the Applicant's risk by no later than 30 days after the date on which the Offer of the Preference Shares is cancelled. Application monies will be returned by cheque mailed to the Applicant's address (where provided by the Applicant), or by interbank credit transfer back to the bank account from which such monies were first received or by any other method as the Directors deem to be appropriate.

Listing and Settlement

An application has been made for up to 250 million Preference Shares to be admitted to the Official List of the CISX. No application has been made for the Preference Shares to be listed on any other stock exchange.

Preference Shares will be issued in registered form and held in uncertificated form.

Every transfer of Preference Shares, once entered in the Register, shall vest in the transferee a beneficial interest in the Preference Shares transferred, notwithstanding any agreements or arrangements to the contrary, however and whenever arising and however expressed. Legal

title to the Preference Shares transferred in this manner vests in the transferee only when the Register is updated by the Registrar and Transfer Agent to reflect such transfer.

Neither the admission of the Preference Shares to the Official List of the CISX nor the approval of the Registration Document and this Summary and Securities Note pursuant to the listing requirements of the CISX shall constitute a warranty or representation by the CISX as to the competence of service providers to, or any other party connected with, the Company, the Cell, the adequacy of information contained in the Registration Document or this Summary and Securities Note or the suitability of the Preference Shares for investment purposes.

If the Preference Shares are admitted to the CISX, the Preference Shares will be admitted with the ISIN JE00B55VXK38. The earliest date on which the Preference Shares will be listed on CISX will be 11 August 2010.

PART VI — Defined Investments PCC: Navigator 1 PC

This Part describes the investment objective and investment policy of the Cell and the rights (including rights on redemption) attaching to the Preference Shares.

Investment Objective

The investment objective of the Cell is to provide capital growth by providing the Shareholders in the Cell with an exposure to the positive performance of the RBS UK Navigator Index (GBP) and to return their initial investment on Redemption Date.

There is no guarantee that the investment objective of the Cell will be achieved.

No hedging transactions are undertaken by the Company (on behalf of the Cell). The Cell's investments in derivative contracts are solely for the purposes of achieving the investment object, as described below under the heading "*Contract*".

Suitability

An investment in the Preference Shares may be suitable for investors (including retail and institutional investors) who believe that the Final Index Level will be higher than the Initial Index Level and who understand that the Index is a rules-based strategy linked to the Excess Return UK 100 Strategy (GBP) ("**ER Asset**").

Applicants should determine the suitability of an investment in Preference Shares in light of their own circumstances, in particular, Applicants should:

- (i) have sufficient knowledge and experience to make an evaluation of an investment in Preference Shares and the merits and risks of investing in Preference Shares;
- (ii) have sufficient financial resources and liquidity to bear all of the risks of an investment in Preference Shares, including the risk of loss of such investment and, where their currency is not sterling, any currency risk; and
- (iii) be able to meet the Minimum Application Size.

Contract

The Company (on behalf of the Cell) will enter into the Contract with the Counterparty. The Contract will be in, or substantially in, the form of an ISDA Master Agreement as supplemented by the Confirmation. Descriptions of certain provisions of the Contract in this Summary and Securities Note are summaries only and are subject to the detailed terms of the Confirmation.

Under the Contract, the Company (on behalf of the Cell) will pay to the Counterparty on or around the Investment Date an amount equal to the Net Proceeds minus the Upfront Amount and within 5 Business Days before the Redemption Date the Counterparty will pay to the Company on behalf of the Cell (or as the Company on behalf of the Cell directs) an amount equal to the total aggregate Redemption Amount in respect of the Preference Shares.

Applicants should note that the sole asset of the Cell will comprise the obligations owed to the Company (on behalf of the Cell) by the Counterparty in respect of the Contract. The Counterparty will not provide collateral to meet its obligations under the Contract and the Contract shall therefore be unsecured. Any assets or arrangements which the Counterparty acquires or enters into, to hedge its obligations under the Contract do not form part of the assets of the Cell. The investment returns payable to Shareholders will be dependent on the Counterparty's ability to meet its payment obligations under the Contract. The Company (on behalf of the Cell) will notify Shareholders if the Company (on behalf of the Cell) invests in an investment other than the Contract.

The Contract includes limited recourse and non-petition covenants that apply in respect of claims by the Counterparty so that the recourse of the Counterparty will be expressly limited to the assets of the Cell. The Cell is therefore acting independently under the Contract of any other cell of the Company and, accordingly, their respective rights and obligations thereunder are separate and independent.

The Counterparty

The Royal Bank of Scotland plc is a public limited company incorporated in Scotland with registration number SCO90312, having been incorporated under Scots law on 31 October 1984. The Royal Bank of Scotland plc is a wholly owned subsidiary of The Royal Bank of Scotland Group plc ("**RBSG**" and together with its subsidiaries, the "**Group**"). RBSG is the holding company of a large global banking and financial services group. Headquartered in Edinburgh, the Group operates in the United Kingdom, the United States and internationally through its three principal subsidiaries - The Royal Bank of Scotland plc, The Royal Bank of Scotland N.V. and National Westminster Bank Plc. In the United States, the Group's subsidiary Citizens Financial Group, Inc. is a large commercial banking organisation. The Group has a large and diversified customer base and provides a wide range of products and services to personal, commercial and large corporate and institutional customers.

The Counterparty has issued securities that have been admitted to trading on the London Stock Exchange.

Redemption

On the Redemption Date all Preference Shares in issue will be compulsorily redeemed by the Cell and, subject to all amounts payable by the Counterparty under the Contract having been received by the Company on behalf of the Cell, the Redemption Amount, calculated by the Calculation Agent, will be paid in the Settlement Currency to Shareholders. A Shareholder has no right to require the Cell to redeem or purchase any of its Preference Shares prior to the Redemption Date.

The Redemption Amount will be paid to Shareholders by an agent on behalf of the Cell in the Settlement Currency to an account specified by the Shareholder with a bank in the principal financial centre of the country of such Settlement Currency.

Redemption Amount

The Redemption Amount is the amount payable with respect to each Preference Share on the Redemption Date calculated by the Calculation Agent as follows:

$$\text{MPP} \times (1 + \max(0; \text{Underlying Performance}))$$

The Redemption Amount payable to Shareholders on the Redemption Date is calculated by the Calculation Agent with reference to the level of the Index as published by the Index Sponsor on the Pricing Date (which is scheduled to fall on 11 August 2010, or if such day is not a Scheduled Trading Day, the immediately following Scheduled Trading Day) (the "**Initial Index Level**") and compared to the average of the levels of the Index over the Valuation Dates (the "**Final Index Level**"). The level of the Index shall be published by the Index Sponsor on each Valuation Date (such Valuation Dates are scheduled to fall on 18 August 2014, 18 September 2014, 18 October 2014, 18 November 2014, 18 December 2014, 18 January 2015, 18 February 2015, 18 March 2015, 18 April 2015, 18 May 2015, 18 June 2015, 18 July 2015 and 18 August 2015 or if any such day is not a Scheduled Trading Day, the immediately following Scheduled Trading Day) and the Final Index Level shall be calculated by the Calculation Agent on 18 August 2015.

If the Final Index Level is greater than the Initial Index Level, then the Redemption Amount payable to Shareholders for each Preference Share on the Redemption Date will be greater than its Maturity Protected Price (being £1.00). If the Final Index level is equal to or less than the Initial Index Level, then the Redemption Amount payable to Shareholders for each Preference Share on the Redemption Date will be equal to its Maturity Protected Price (being £1.00).

Example of potential returns:

The following table shows the potential returns if £20,000 were invested at the Issue Date. **This is a worked example on the fictional assumptions as to Index performance given in the table below, and should not be relied on as an indicator of future performance.**

Initial investment	Underlying Performance	On Redemption Date
£20,000	100%	£40,000
£20,000	80%	£36,000
£20,000	60%	£32,000
£20,000	40%	£28,000
£20,000	20%	£24,000
£20,000	0%	£20,000
£20,000	-20%	£20,000

£20,000	-40%	£20,000
---------	------	---------

Market Disruption Events

If the Calculation Agent determines that a Market Disruption Event has occurred, it shall as soon as reasonably practicable under the circumstances notify the Directors who shall in turn inform the Shareholders of such occurrence. Any determination made by the Calculation Agent shall (save in case of manifest error) be final, conclusive and binding under the Contract.

Potential Index Adjustments

Where there is a Potential Index Adjustment, the Calculation Agent shall determine in its sole and absolute discretion but in consultation with the Directors, which of the following actions shall be taken. The actions may include, but shall not be limited to, the following:

- (i) select an alternative to the ER asset (or any constituent comprising the ER Asset); or
- (ii) calculate a substitute level for the ER Asset based on but not restricted to the last published level of the constituents of the ER Asset; or
- (iii) accept the level of the ER Asset or its constituents as published on any alternative price source; or
- (iv) adjust, amend or otherwise alter the Index.

Calculations and Determinations

The Calculation Agent shall make calculations and determinations in its sole discretion pursuant to the Contract, acting in good faith and in a commercially reasonable manner.

Early Termination of the Contract

The Contract is expected to be entered into upon terms which allow the Contract to be terminated, *inter alia*, in the following circumstances: (a) by the Company (on behalf of the Cell) if the Counterparty fails to make a payment under the Contract (subject to the applicable grace period set out in the Contract) or makes a representation which is incorrect or misleading in any material respect or fails to comply with its related obligations; (b) by the Counterparty if the Company (on behalf of the Cell) fails to make a payment it is required to pay under the Contract (subject to the applicable grace period set out in the Contract); (c) by either the Counterparty or the Company (on behalf of the Cell) if the Cell or the Counterparty, as the case may be, is dissolved, becomes insolvent or is unable to pay its debts as they become due or on the occurrence of an illegality or the imposition on payments under the Contract of a withholding which the Company (on behalf of the Cell) or the Counterparty, as the case may be, is unable to gross-up; (d) by the Counterparty if the Counterparty is unable or would incur a materially increased amount of tax, duty, expense or fee in acquiring,

establishing, maintaining, unwinding or disposing of any transactions or assets it deems necessary to hedge its risk of entering into and performing its obligations with respect to the Contract; and (e) by the Company for the purposes of an ETE Termination.

It is anticipated that, on early termination of the Contract, a termination payment (an "**Early Termination Payment**") will become due to the Company (on behalf of the Cell). Please refer to the sections headed "*Early Termination of the Contract*", "*Early Termination Events*" and "*Mandatory Early Redemption of the Preference Shares*" at Part X of this Summary and Securities Note for further details.

Taxation

Currently, no withholding tax will be deducted from any dividends paid by the Company (on behalf of the Cell). No dividends are expected to be paid on the Preference Shares. Further taxation information for Shareholders is set out in Part IX of this Summary and Securities Note.

PART VII — FEES AND EXPENSES

General Expenses

Details of the General Expenses are set out in the Registration Document under the heading "*Management and Administration — Fees and Expenses*".

Certain expenses will be paid by the Promoter on behalf of the Company pursuant to the Promoter Agreement.

Cell Expenses

The Cell Expenses in respect of the Cell comprise the following fees and expenses:

(i) *Initial Cell Expenses*

The fees and expenses of: (a) preparing and printing this Summary and Securities Note (including without limitation regulatory fees and the fees and expenses of legal advisers to the Company (on behalf of the Cell), the auditors to the Company (on behalf of the Cell); (b) obtaining the official listing of the Preference Shares on the CISX; (c) making the Offer, allotment, issue, distribution (including without limitation the fees and expenses of the Distributor) and initial settlement of the Preference Shares; and (d) the Investment Adviser.

(ii) *Ongoing Cell Expenses*

The fees and expenses of the Administrator, the Corporate Administrator, the Secretary, the Custodian, the Listing Sponsor Agent and the Registrar and other service providers and advisers, in relation to the Preference Shares, including banking and brokerage fees payable in connection with transactions relating to the assets of the Cell and the costs of calculating and publishing details of the NAV per Preference Share and the costs of maintaining the listing of the Preference Shares on the CISX.

Where the minimum number of Preference Shares pursuant to the Offer (5 million) are issued, the total Cell Expenses are estimated to equal between £250,000 if the Preliminary Charge is £0.05 per Preference Share and £350,000 if the Preliminary Charge is £0.07 per Preference Share.

Where the maximum number of Preference Shares pursuant to the Offer (250 million) are issued, the total Cell Expenses are estimated to equal between between £12,500,000 if the Preliminary Charge is £0.05 per Preference Share and £17,500,000 if the Preliminary charge is £0.07 per Preference Share.

The Upfront Amount (being a portion of the Net Proceeds equalling the Preliminary Charge multiplied by the number of Preference Shares issued) shall be used by the Company (on behalf of the Cell) for the purposes of paying Cell Expenses.

The Company (on behalf of the Cell) shall use part of the Upfront Amount to pay the Initial Cell Expenses.

The Company (on behalf of the Cell) shall use the remainder of the Upfront Amount to pay Ongoing Cell Expenses.

Certain other expenses, not funded out of the Upfront Amount, will be paid by the Promoter on behalf of the Company pursuant to the Promoter Agreement.

Worked Example – for illustrative purposes only

This example sets out the calculations that would be applied if an investor were to invest £20,000 in the Preference Shares. As described in Part III, at the definition of "Preliminary Charge", the Preliminary Charge will be no less than £0.05 per Preference Share and no more than £0.07 per Preference Share. Where relevant, this worked example uses two alternative figures. In each such case the first given figure is on the basis of a Preliminary Charge of £0.05 per Preference Share and the second given figure is on the basis of a Preliminary Charge of £0.07 per Preference Share. Where only one figure is given, this is because such amount will be unaffected by the amount of the Preliminary Charge. The Preference Shares will have a Maturity Protected Price of £1.00 per Preference Share, therefore ensuring that the Redemption Amount in respect of such Preference Shares is at least £20,000.

Initial investment	£20,000
Number of Preference Shares at an Issue Price of £1 each	20,000
Less	
Preliminary Charge of £0.05/0.07 per Preference Share	£1,000/1,400
Equals	
Money remaining to pay to Counterparty pursuant to the Contract	£19,000/18,600
Value of 20,000 Preference Shares on the Investment Date	£19,000/18,600
Maturity Protected Price	£1 per Preference Share
Minimum redemption amount (number of Preference Shares x Maturity Protected Price)	£20,000

PART VIII — MATERIAL CONTRACTS

Here follows a summary of the Distribution Agreement, which, together with the contracts described on pages 63 to 67 of the Registration Document are the material contracts, other than the contracts entered to in the ordinary course of business, to which the Company (on behalf of the Cell) is a party.

Save as described in this Part VIII, the Company has not entered into any contracts on behalf of any protected cell of the Company (other than a contract entered into in the ordinary course of business) which contains any provision under which the Company (on behalf of the Cell) has any obligations or entitlement which is material to the Company as at the date of this Summary and Securities Note.

Distribution Agreement

The Company (on behalf of the Cell) has appointed The Royal Bank of Scotland plc (or its Affiliate or delegate) as the Distributor for the Preference Shares in the UK.

A Distribution Agreement has been entered into between the Company (on behalf of the Cell), and the Distributor dated 11 November 2009, and it is expected to be supplemented by the Distribution Confirmation between the Company (on behalf of the Cell) and the Distributor on or before the Opening Date, pursuant to which the Distributor will be appointed to purchase and to distribute the Preference Shares.

The Distribution Agreement includes limited recourse and non-petition covenants that apply in respect of claims by the Distributor. The Cell is acting independently under the Distribution Agreement of any other cell of the Company and, accordingly, their respective rights and obligations thereunder are separate and independent.

PART IX — TAXATION

The following statements are by way of a general guide only to Shareholders. They are not exhaustive and do not constitute tax advice. Shareholders are therefore advised to consult their professional advisers concerning possible taxation or other consequences of purchasing, holding, selling or otherwise disposing of the Preference Shares and the receipt of distributions (whether or not on redemption) under the laws of the countries in which they are liable for taxation.

Shareholders should note that the following statements on taxation are based on advice received by the Directors regarding the law and practice in force in Jersey and the UK at the date of this Summary and Securities Note. As is the case with any investment, there can be no guarantee that the tax position or proposed tax position prevailing at the time an investment is made in the Preference Shares will endure indefinitely and prospective investors should be aware that the relevant fiscal rules and practice or their interpretation may change (possibly with retrospective effect). The following tax summary is not a guarantee to any investor of the tax results of investing in the Preference Shares.

JERSEY

Income Tax

The Company is liable to be charged tax at a rate of 0% under Schedule D under the Income Tax (Jersey) Law 1961, as amended (the "**Income Tax Law**") in respect of (i) the income or profits of any trade carried on by the Company and each cell of the Company, in Jersey or elsewhere, (ii) any interest of money, whether yearly or otherwise, or other annual payment paid to the Company or the Company (on behalf of any cell of the Company) as the case may be, whether such payment is made within or out of Jersey, (iii) dividends and other distributions of a company regarded as resident in Jersey paid to the Company or the Company (on behalf of any cell of the Company), as the case may be, (iv) income arising to the Company or the Company (on behalf of any cell of the Company), from securities out of Jersey and (v) any other income that is not derived from the ownership or disposal of land in Jersey. It is not expected that the Company will be in receipt of income charged to tax under any Schedule under the Income Tax Law other than Schedule D. The Cell is not treated as a taxable entity separate from the Company for this purpose

The Company is not entitled to make any deduction or withholding for or on account of Jersey income tax from any dividends on any shares and, in any case, it is not proposed that there will be any dividends on the Preference Shares. The Shareholders (other than residents of Jersey) are not subject to any tax in Jersey in respect of the acquisition, ownership, sale, exchange or other disposition of Preference Shares.

A Jersey resident individual who owns, directly or indirectly, more than 2% of the Preference Shares may be assessed and taxed at a rate of 20% on the portion of the relevant profits of the Cell, (as determined in accordance with the Income Tax Law), corresponding to the percentage of Preference Shares owned by such individual. Where such an individual is liable to be assessed and taxed in respect of such relevant profits and ceases to be resident in Jersey,

the Comptroller of Income Tax in Jersey is entitled, in certain circumstances, instead to assess and tax the Company on the individual's portion of the balance of the income, profits and gains of the Cell.

Goods and Services Tax

The Company and the Cell will each be an "international services entity" for the purposes of the Goods and Services Tax (Jersey) Law 2007 (the "**GST Law**") and, accordingly, they will not be required (i) to register as a taxable person pursuant to the GST Law, (ii) to charge goods and services tax in Jersey in respect of any supply made by them or (iii) subject to the following provisos, to pay goods and services tax in Jersey in respect of any supply made to them. The aforementioned provisos are as follows:

- (i) Where a taxable supply made to the Company or the Cell, as the case may be, by a person registered as a taxable person under the GST Law has a value of less than £1,000, the Company or the Cell, as the case may be, will be required to pay goods and services tax in Jersey (at 3% of the value of the supply) on such supply if the supply is made under the retail scheme established under Article 43 of the GST Law and the supplier elects to charge goods and services tax on such supply. It is not expected that the Company or the Cell, as the case may be, will be in receipt of supplies made under such retail scheme and, to the extent that either is in receipt of such supplies, the Company or the Cell, as the case may be, may be entitled to a refund of any such goods and services tax paid, subject to compliance with the relevant provisions of the GST Law; and
- (ii) Where a taxable supply made to the Company or the Cell, as the case may be, by a person registered as a taxable person under the GST Law is a supply of goods for onward re-supply of such goods in Jersey in the same state in which they existed when supplied to the Company or the Cell, as the case may be, the Company or the Cell, as the case may be, will be required to pay goods and services tax in Jersey (at 3% of the value of the supply) on such supply. It is not expected that the Company or the Cell, as the case may be, will be in receipt of any taxable supplies of goods from a person registered as a taxable person under the GST Law.

Stamp Duties

No stamp duties are payable in Jersey on the acquisition, ownership, exchange, sale or other disposition *inter vivos* of Preference Shares. Stamp duty of up to 0.75% is payable on the grant of probate or letters of administration in Jersey in respect of a deceased natural person (i) who died domiciled in Jersey, on the value of the entire estate (including any Preference Shares or interests therein) and (ii) otherwise, on the value of so much of the estate (including any Preference Shares or interests therein), if any, as is situated in Jersey.

Jersey and the European Union Directive on the Taxation of Savings Income

As part of an agreement reached in connection with the European Union directive on the taxation of savings income in the form of interest payments, and in line with steps taken by

other relevant third countries, Jersey introduced with effect from 1 July 2005 a retention tax system in respect of payments of interest, or other similar income, made to an individual beneficial owner resident in an EU Member State by a paying agent established in Jersey. The retention tax system applies for transitional period prior to the implementation of a system of automatic communication to EU Member States of information regarding such payments. During this transitional period, such an individual beneficial owner resident in an EU Member State will be entitled to request a paying agent not to retain tax from such payments but instead to apply a system by which details of such payments are communicated to the tax authorities of the EU Member State in which the beneficial owner is resident.

The retention tax system in Jersey is implemented by means of bilateral agreements with each of the EU Member States, the Taxation (Agreements with European Union Member States (Jersey) Regulations 2005 and Guidance Notes issued by the Policy & Resources Committee of the States of Jersey. Based on these provisions and our understanding of the current practice of the Jersey tax authorities (and subject to the transitional arrangements described above), the Company or the Cell, as the case may be, would not be obliged to levy retention tax in Jersey under these provisions in respect of interest payments made by it to a paying agent established outside Jersey.

UNITED KINGDOM

The Company

On the basis that the Company is not resident in the UK for tax purposes, and that its activities do not amount to trading in the UK, it should not be subject to UK income tax or corporation tax on any income or other profits or gains of an income nature which it derives from sources outside the UK and it will not be within the scope of UK capital gains tax or corporation tax in respect of capital gains wheresoever arising. However, the Company may be subject to UK income tax on any income or other profits or gains of an income nature arising within the UK.

UK Resident Investors

The following summary only covers the principal UK tax consequences for the absolute beneficial owners of Preference Shares, and any dividends paid in respect of them, in circumstances where the dividends paid are regarded for UK tax purposes as that person's own income (and not the income of some other person). In addition, the following summary:

- only addresses the tax consequences for Shareholders who hold Preference Shares as capital assets and does not address the tax consequences which may be relevant to certain other categories of holders (such as, for example, dealers);
- does not address the tax consequences for Shareholders that are insurance companies or persons connected with the Company; and
- assumes that individual Shareholders are domiciled, resident and ordinarily resident in the UK, unless otherwise stated.

Subject to the above, the following is a non-exhaustive summary of the expected UK tax treatment of participation by UK persons in the Cell based upon law and practice as at the date hereof (which, in either case, may change, potentially with retrospective effect).

The following is intended only as a general guide and is not intended to be, nor should it be considered to be, legal or tax advice to any prospective Shareholder. Prospective Shareholders should satisfy themselves as to the overall tax consequences, including, specifically, the consequences under UK law and HM Revenue & Customs ("HMRC") practice, of acquisition, ownership and disposition of Preference Shares in their own particular circumstances by consulting their own tax advisers.

Individual Shareholders who acquire their investment in Preference Shares through an Individual Savings Account

The Preference Shares will qualify for inclusion within the stocks and shares component of an ISA provided that they are officially listed on a recognised stock exchange (the CISX is so recognised) and provided that, judged at the date upon which the Preference Shares are held in the relevant Shareholder's account, the Shareholder will not be entitled to a secured minimum return at any time falling within the following five years. On the basis that the scheduled redemption date of the Preference Shares is 25 August 2015, Shareholders who acquire their Preference Shares through an ISA should not be regarded as being entitled to a secured minimum return. UK tax resident Shareholders who acquire their investment in Preference Shares through an ISA and who satisfy the requirements for tax exemption in the ISA Regulations will not be subject to either UK income tax or UK capital gains tax on income and gains realised from their investment. Any losses on their investment will be disregarded for the purposes of UK capital gains tax.

Prospective investors should note that under current practice of HMRC, ISA managers cannot use cash held in an ISA stocks and shares component to purchase shares brought to the market by a placing. Accordingly, Preference Shares acquired in the secondary market will be eligible.

For the tax year 2009/10, the ISA limit is £7,200. The Individual Savings Account (Amendment) Regulations 2009 increase the ISA limit to £10,200 for people aged 50 and over with effect on and after 6 October 2009. The ISA limit will rise to £10,200 for all ISA investors on and after 6 April 2010.

Taxation treatment of other Shareholders

Taxation of Dividends

It is not intended that any dividends be paid to Shareholders in relation to the Preference Shares. However, subject to the above, if a Shareholder were to receive a dividend from the Company the Shareholder would be subject to UK tax in respect of any dividends received in accordance with its own circumstances.

Taxation on Disposal of Preference Shares

The Offshore Funds Regime

Where the offshore funds regime (in Part 8 of the Finance Act 2008 and the Offshore Funds (Tax) Regulations 2009) applies, any gains realised by a shareholder on the disposal of an interest in the offshore fund will be taxable as income, unless the fund has at all material times been certified by HMRC as a reporting fund.

For the purposes of the offshore funds regime, each cell of a protected cell company should be considered as a separate fund. However, it is expected that the Cell should not be regarded as an "offshore fund" for the purposes of Part 8 of the Finance Act 2008. Accordingly, gains realised on the disposal of Preference Shares should not be taxable as income under the offshore funds regime.

UK tax resident individual Shareholders

UK tax resident individual Shareholders should be subject to capital gains tax in accordance with their own circumstances (at a rate of 18% for the tax years 2009/10 and 2010/2011) on capital gains arising from the sale or other disposal (including redemption) of the Preference Shares to the extent that their total gains in any tax year exceed the annual allowance for tax free capital gains (the "**annual exemption**") in the tax year in which the disposal of their Preference Shares takes place. The annual exemption for the tax year 2009/10 is £10,100 (and £10,100 for the 2010/2011 tax year).

UK tax resident corporate Shareholders

UK tax resident corporate Shareholders should be liable to corporation tax in accordance with their own circumstances (at a rate of 28% for the 2009/10 and 2010/2011 tax years) on capital gains arising from the sale or other disposal (including redemption) of the Preference Shares. Indexation allowance may apply to reduce capital gains.

Disguised interest rules and shares accounted for as liabilities

New legislation in the Finance Act 2009 introduces a new regime for the taxation of interest disguised as other income and for the taxation of returns from shares accounted for as liabilities. This legislation replaces the shares as debt rules formerly contained in Chapter 7 of Part 6 of the Corporation Tax Act 2009 with effect for arrangements entered into on and after 22 April 2009. Both sets of provisions only apply to UK corporation taxpayers where the UK corporation taxpayer is party to an arrangement which produces a return in relation to any amount which is "economically equivalent to interest". For these purposes for a return to be economically equivalent to interest it must be reasonable to assume that the return is by reference to the time value of that amount of money and it is at a rate reasonably comparable to what is (in all the circumstances) a commercial rate of interest. However, as the Preference Shares are not intended to produce a return at a rate reasonably comparable to what is (in all the circumstances) a commercial rate of interest, then these provisions should not apply.

Corporate Shareholders within the charge to corporation tax should be aware that Chapter 3 of Part 6 of the Corporation Tax Act 2009 contains certain provisions that may in certain circumstances treat holdings in offshore funds as if they were rights under a creditor relationship. On the basis that the Cell should not be treated as an offshore fund, these provisions should not apply.

UK Inheritance Tax

A gift of Preference Shares or the death of a Shareholder may give rise to a liability to UK inheritance tax. For these purposes, a transfer of assets at less than their full market value may be treated as a gift. However, an individual who is not domiciled in the UK, and is not deemed to be domiciled in the UK for inheritance tax purposes under special rules relating to long residence or previous domicile in the UK, is not generally within the scope of inheritance tax with respect to assets situated outside the UK. Preference Shares should constitute assets situated outside the UK for inheritance tax purposes. Shareholders should satisfy themselves as to the application of the UK inheritance tax rules to their own personal circumstances by consulting their own tax advisers.

Remittance Basis of Taxation

Individual Shareholders who are not domiciled or ordinarily resident in the UK should note that extensive changes to the remittance basis of taxation were introduced in the Finance Act 2008. Such Shareholders should consult their own tax advisers on these changes and the operation of the new remittance rules.

OTHER UK TAX ISSUES

Stamp Duty and Stamp Duty Reserve Tax

No UK stamp duty will be payable on the issue of the Preference Shares and no UK stamp duty will be payable on the transfer of the Preference Shares, provided that any instrument of transfer is not executed in the UK. Provided that the Preference Shares are not registered on any register situated in the UK, no UK stamp duty reserve tax will be chargeable on the issue of the Preference Shares or any agreement to transfer the Preference Shares.

Controlled Foreign Companies

If the Company were controlled by persons resident in the UK, the legislation applying to controlled foreign companies may apply to corporate Shareholders who are resident in the UK and who hold alone, or with connected persons, an interest of at least 25 per cent. in the Company. Under the controlled foreign company rules, part of any undistributed income accruing to the Company may be attributed to such a Shareholder, and may in certain circumstances be chargeable to UK corporation tax in the hands of the Shareholder.

Transfer of Assets Abroad

The attention of individual prospective Shareholders who are ordinarily resident in the UK is drawn to the provisions of Chapter 2, Part 13 of the Income Tax Act 2007 ("ITA") under which income accruing to the Company may be attributed to such a Shareholder, who may, in

certain circumstances, be liable to UK income tax in respect of undistributed income and profits of the Company on an annual basis.

Transactions in Securities

The attention of prospective Shareholders is also drawn to the provisions of sections 703 to 709 of Income and Corporation Taxes Act 1988 for corporation tax purposes (sections 731 to 751 Corporation Tax Act 2010 with effect from accounting periods ending on or after 1 April 2010), and Chapter 1, Part 13 of ITA for income tax purposes, which give powers to HMRC to cancel tax advantages derived from certain transactions in securities. In the UK Budget on 24 March 2010, it was announced that amendments would be made to the transactions in securities rules in the Finance Bill 2010 (with these amendments generally taking effect on or after 24 March 2010).

Section 13 Taxation of Chargeable Gains Act 1992

This paragraph applies to Shareholders who are resident or ordinarily resident in the UK and, whose interest (when aggregated with persons connected with them) in the chargeable gains of the Company exceeds one-tenth. In the event that the Company would be treated as "close" if it were resident in the UK (broadly, that it was under the control of five or fewer persons), then part of the chargeable gains accruing to the Company could be attributed to such a Shareholder and may (in certain circumstances) be subject to UK tax on capital gains in the hands of the Shareholder. The part attributed to the Shareholder corresponds to the Shareholder's proportionate interest in the Company.

Notice of such modification will be given to the Shareholders.

Early Termination of the Contract

On Early Termination of the Contract, a termination payment (an "**Early Termination Payment**") will become due to the Company (on behalf of the Cell). Except following an ETE Termination (as defined below), the Directors may in their sole and absolute discretion reinvest the proceeds of such Early Termination Payment as they see fit in investments which in the opinion of the Directors replicate as nearly as practicable the investment characteristics of the Contract contemplated by and described in the Summary and Securities Note and so that the proceeds are invested, as nearly as practicable, in accordance with the Cell's stated investment objective. Any Early Terminal Payment under the Contract, even if recovered by the Company (on behalf of the Cell) and reinvested, may result in a lower return than would have been the case if the Contract had been continued and had been performed up to the Redemption Date. This may affect the ability of the Company (on behalf of the Cell) to pay the Redemption Amount. In the event that the Directors determine that the investment characteristics of the Contract cannot be replicated, as described above, then the Directors will notify Shareholders of such circumstances and the proposed relevant Early Termination Payment under the Contract and may either (i) determine that the proceeds of such termination payment will be reinvested in alternative investments (and notify Shareholders of such determination) or (ii) determine that a Mandatory Early Redemption Event has occurred.

Early Termination Events

Where the Directors have determined in their absolute discretion that:

- (i) an Early Termination Event has occurred;
- (ii) such Early Termination Event has, or is likely to have, a materially adverse impact (including without limitation an increased cost which may prevent the Company on behalf of the Cell paying the Redemption Amount in full) on the Shareholders; and
- (iii) such Early Termination Event cannot be, or has not been, remedied to the Directors' satisfaction, in each case within a reasonable amount of time,

then the Company (on behalf of the Cell) shall terminate the Contract (such termination being an "**ETE Termination**"), and such ETE Termination shall be deemed to be a Mandatory Early Redemption Event.

Mandatory Early Redemption of the Preference Shares

Where a Mandatory Early Redemption Event occurs, the Directors will arrange for a notice (a "**Mandatory Early Redemption Notice**") to be served on the Shareholders that all the then outstanding Preference Shares shall be mandatorily redeemed, subject to the Laws, the Articles and these Specific Terms and Conditions, on the Mandatory Early Redemption Date and at the Mandatory Early Redemption Amount.

The Mandatory Early Redemption Amount shall be paid to each Shareholder in full and final settlement of the Redemption Amount payable by the Company (on behalf of the Cell).

Shareholders can generally expect to receive the Mandatory Early Redemption Amount within 5 Business Days following the Mandatory Early Redemption Date.

Directors' Conflicts of Interest

Subject as set out in the two following paragraphs, no Director has any interest in the promotion of, or any property acquired or proposed to be acquired by, the Cell.

The services of Dean Godwin, Chris Ruark, Gareth Essex-Cater and Helen Grant as directors of the Cell are provided as part of the Corporate Administrator's corporate administration services to the Cell pursuant to the Corporate Administration Agreement; and their remuneration is paid by the Company to the Corporate Administrator as part of the annual fees payable to the Corporate Administrator pursuant to such agreement.

Dean Godwin, Chris Ruark, Gareth Essex-Cater and Helen Grant are employees of Mourant Limited. Mourant & Co. Limited, to which fees are payable for providing corporate administration services to the Cell pursuant to the Corporate Administration Agreement, including provision of a secretary through its subsidiary company, Mourant & Co. Related Party Transactions

Each of the Directors is an employee of Mourant Limited and an indirect shareholder or beneficiary of an employee share trust in Mourant Limited. Mourant & Co Limited and Mourant Capital Markets Services Limited are subsidiaries of Mourant Limited. As described above, Mourant & Co Limited has entered into the Corporate Administration Agreement with the Company (acting in respect of itself and the Cell) and Mourant Capital Markets Services Limited has entered into the Listing Sponsorship Agreement with the Company (acting in respect of the Cell). Each such Agreement is on arm's length terms. It is estimated that the Company will pay fees of £3,000 per annum per cell under the Corporate Administration Agreement and a continuing listing fee of £1,000 per annum, together with one off fees of £8,000 for listing the Company and £1,250 for listing each cell under the Listing Sponsorship Agreement.

Capitalisation and Indebtedness

The issued share capital of the Cell is, as at the date of this Summary and Securities Note, two Ordinary Shares (issued at an issue price of £1.00 each and fully paid-up), which are beneficially held by The Maser Trust, a trust established under the laws of Jersey for charitable purposes. There are no measures to ensure that control vested in such Ordinary Shares is not abused. However, the constituting trust instrument of the Maser Trust contains provisions requiring that its trustees shall not act in any way so as to prejudice the performance by the Company of its obligations under any agreements or arrangements to which it is a party.

As of the date of this Summary and Securities Note, neither the Cell nor the Company (on behalf of the Cell) has any outstanding, or created but unissued, loan capital (including term loans) or any outstanding mortgages, charges, debentures or other borrowings or other indebtedness (whether guaranteed, unguaranteed, secured, unsecured, indirect or contingent).

Shareholders will also receive an unaudited interim report to 30 June in each year with the first interim accounts being prepared to 30 June 2010, expected to be despatched within four months of the date as of which such reports are prepared.

Banking and Custodian Arrangements

Citibank N.A., acting through its offices in London has been appointed by the Company (on behalf of the Cell) to act as Custodian. The Company (on behalf of the Cell) will open an account with the Custodian in order to receive any subscription monies in respect of the Offer.

Memorandum and Articles of Association of the Cell

The following only contains a summary of certain provisions of the Memorandum and Articles of the Cell and is subject to the express terms thereof which are binding on all Members of the Cell.

The Articles of the Cell contain provisions to the following effect:

a) Allotment and issue of Preference Shares

The Directors may (subject to the provisions of the Articles) allot unissued Shares to such persons at such times and on such terms as they think proper, but no Shares shall be issued at a discount.

Each Shareholder shall be deemed to have agreed with the Cell that the Preference Shares may not be offered to, sold to, transferred to or purchased or held by or for the account of persons resident for income tax purposes in Jersey, unless the Directors, by resolution, determine otherwise.

Each Preference Share shall be issued as part of a class within a Series. Any issue of Preference Shares of a class made after the initial issue of the Preference Shares of that class (other than to existing class holders of that class on a pro rata basis) shall be issued at an issue price at least equal to the Net Asset Value per Share of that class as at the most recent practicable date prior to their issue and otherwise subject to the Laws, the Articles and the Specific Terms and Conditions of that class. The rights and obligations attaching to each class of Preference Shares is set out in the relevant Summary and Securities Note.

The Specific Terms and Conditions and the Summary and Securities Notes containing the Specific Terms and Conditions will be binding on the Shareholders and Directors, as if contained in the Articles.

No Preference Share can be issued on terms that entitle the Shareholders to participate in the assets of the Cell other than the assets (if any) attributable to the segregated fund established and maintained by the Cell representing the assets of the Cell attributable to the Preference Shares (the "**Series Fund**"). If the net realised assets attributable to such fund are insufficient to pay in full all amounts payable in respect of the relevant class of Preference Shares in accordance with the Specific Terms and Conditions of that class, the relevant Shareholders shall have no claim against the Cell, the Company or any other protected cell in respect of any shortfall.

Subject to the Laws, each Shareholder must comply with any request by CISX, the Cell or the Directors for the disclosure of the immediate or beneficial owner of Preference Shares held by such Shareholder. Where a Shareholder fails to comply with any such request the Directors may impose the sanctions on the relevant Shareholder, including but not limited to, prohibition against the relevant Shareholder's attendance or voting at any general meeting or class meeting and the withholding of the payment of any dividends (including scrip issues in lieu of dividends) in respect of the relevant Preference Shares.

b) Variation of Rights

The special rights attached to any class of Preference Shares (unless otherwise provided by Specific Terms and Conditions of that class) may be varied, amended or abrogated, with the consent in writing of the Shareholders representing the majority of the issued Preference Shares of that class, or with the sanction of a ordinary resolution passed at a meeting of Shareholders of that class.

However no consent or sanction shall be required in the case of a variation, amendment or abrogation of the special rights attached to any Preference Shares of any class if, in the view of the Directors, such variation, amendment or abrogation does not materially prejudice the interests of the relevant Shareholders. Any such variation, amendment or abrogation must be set out in revised Specific Terms and Conditions of that class of Preference Shares in a supplement to, or restatement of, the relevant Summary and Securities Note originally issued in connection therewith, a copy of which will be made available to the affected Shareholders entered on the Registrar on the date of issue of

such document and will be binding on the Shareholders of that class of Preference Shares.

The special rights conferred upon the Shareholders will be deemed to be varied by any reduction of capital paid up on such Preference Shares and by the creation of further shares ranking in priority thereto but shall (unless otherwise expressly provided by the Articles or by the conditions of issue of such Preferences Shares) be deemed not to be varied by:

- (i) the creation, allotment or issue of ordinary shares;
- (ii) the creation, allotment or issue of further shares not participating in the Series Fund allocated to such Series of Preference Shares or the creation, allotment or issue of further Preference Shares of a class (provided that such further Preference Shares are issued at an issue price of at least the Net Asset Value per Preference Share of such class as at the most recent practicable date prior to their issue or are issued to existing Shareholders of that class on a pro rata basis;
- (iii) the redemption of Preference Shares of any class in accordance with the Specific Terms and Conditions of such class;
- (iv) the payment of a dividend on the Preference Shares of any other class where the dividend is paid out of the Series Fund allocated to such Series of Preference Shares; or
- (v) the amendment of the definition of a US Person or Prohibited Person where the Cell has been advised that such amendment will not materially prejudice the Cell.

The Cell in general meeting or its Directors may at any time and from time to time confer on Shareholders of any class such further rights or privileges in addition to those contained in the Articles as it or they may think fit without conferring such rights or privileges generally on all Shareholders or obtaining the consent or sanction of any Shareholders provided that by so doing the rights of Shareholders of any other class as to dividend or redemption or return of capital on a winding up or the application of the Series Fund allocated to such Series of Preference Shares are not thereby reduced or abrogated.

c) Cell Restructuring

Subject to the provisions of the Laws the Cell may apply to the Jersey registrar of companies to be incorporated as a company independent of the Company. The application must be approved by a Special Resolution or if there is more than one class of Members, by a Special Resolution of each class of Members. Subject to the provisions of the Laws, the Cell may be transferred from the Company to any other cell company.

d) Meetings and Voting Rights

General meetings of the Cell and class meetings shall be held as required by the Laws or as the Directors think fit. The Directors must also call an extraordinary meeting of the Cell on the requisition in writing of Members in accordance with the Laws. Shareholders are not entitled to vote at any general meeting.

At any general meeting or class meeting every question shall be decided in the first instance by a show of hands (majority of votes cast). On a show of hands every Member present in person shall have one vote. A Member present in person or represented in accordance with the Articles at such a meeting shall on a poll have one vote for each relevant share registered in the name of such Member. The quorum for any general meeting of the Cell shall be not less than two Members present in person. Only Members whose names appear on the Register on the date of the meeting (or their authorised representatives or proxies) are entitled to attend and vote at a meeting of the Cell.

A resolution in writing (including a Special Resolution but excluding a resolution removing an auditor) signed by all Members who would be entitled to receive notice of and to attend and vote at a meeting at which such a resolution would be proposed, or by their duly appointed attorneys, shall be as valid and effectual as if it had been passed at a meeting of the Cell duly convened and held. Any such resolution may consist of several documents in the like form each signed by one or more of the Members or their attorneys.

e) Directors' Interests

Subject to the provisions of the Laws and provided that he has disclosed to the Directors the nature and extent of any of his interests which conflict or may conflict to a material extent with the interests of the Cell, a Director notwithstanding his office:

- (i) may be a party to, or otherwise interested in, any transaction or arrangement with the Cell, the Company or any other protected cell or in which the Cell, the Company or any other protected cell is otherwise interested;
- (ii) may be a director or other officer of, or employed by, or a party to any transaction or arrangement with, or otherwise interested in, any body corporate promoted by the Cell, the Company or any other protected cell or in which the Cell, the Company or any other protected cell is otherwise interested;
- (iii) shall not, by reason of his office, be accountable to the Cell, the Company or any other protected cell for any benefit which he derives from any such office or employment or from any such transaction or arrangement or from any interest in any such body corporate and no such transaction or arrangement shall be liable to be avoided on the ground of any such interest or benefit.

A Director, notwithstanding his interest, may be counted in the quorum present at any meeting at which any contract or arrangement in which he is interested is considered and, provided he has made disclosure to the Directors as provided for in the Articles, may vote in respect of any such contract or arrangement.

f) Committees

The Directors may delegate any of their powers to committees consisting of such Directors or such other persons as they think fit provided that a majority of any such committee are not UK tax resident. Any committee so formed shall in the exercise of the powers so delegated conform to any regulations that may be imposed on it by the Directors. The meetings and proceedings of any such committee consisting of two or more persons shall be governed by the provisions of the Articles regulating the meetings and proceedings of the Directors, so far as the same are applicable and are not superseded by any regulations made by the Directors under the Articles.

g) Appointment and Retirement of Directors

The Directors have the power at any time to appoint any person to be a Director, either to fill a casual vacancy or as an addition to the existing Directors.

Any Member holding, or any Members holding in aggregate, at the relevant time a majority of the total voting rights of the Members having a right to attend and vote at a general meeting of the Cell may by notice in writing signed by or on behalf of him or them and delivered to the registered office of the Cell or tendered at a meeting of the Directors or at a general meeting of the Cell at any time and from time to time appoint any person to be a Director (either to fill a vacancy or as an additional Director).

The Directors are not required to retire by rotation or by virtue of their attaining a certain age.

The office of a Director shall be vacated if:

- (i) he resigns his office by notice to the Cell; or
- (ii) he ceases to be a Director by virtue of any provision of the Laws or he becomes prohibited or disqualified by Laws from being a Director; or
- (iii) he becomes bankrupt or makes any arrangement or composition with his creditors generally; or
- (iv) subsequent to his appointment he becomes resident in the UK and but for the provisions of this sub-paragraph, a majority of Directors would thereby have become resident in the UK; or
- (v) he is removed from office by resolution of the Members.

Any Member holding, or any Members holding in aggregate, at the relevant time a majority of the total voting rights of the Members having a right to attend and vote at a

general meeting of the Cell may by notice in writing signed by or on behalf of him or them and delivered to the registered office or tendered at a meeting of the Directors or at a general meeting of the Cell at any time and from time to time remove any Director from office. Shareholders are not entitled to vote at any general meeting and therefore do not have the above rights.

h) Powers of Directors

The business of the Cell will be managed by the Directors. The Directors may exercise all powers of the Cell that are not required by the Laws or the Articles to be exercised by the Cell in general meeting. The Articles do not restrict or limit the Directors from borrowing money or assets on behalf of the Cell.

Any approval, authority or action of the Directors on behalf of the Cell shall, *ipso facto*, be deemed to be an approval, authority or action of the Directors of the Company in respect of the Cell.

The Directors may meet together for the dispatch of business, adjourn and otherwise regulate their meetings as they think fit, provided that all meetings of the Directors take place outside of the United Kingdom.

All acts done *bona fide* by any meeting of Directors or of a committee appointed by the Directors or by any person acting as a Director shall, notwithstanding that it is afterwards discovered that there was some defect in the appointment of any such Director or committee or person acting as aforesaid, or that they or any of them were disqualified or had vacated office or were not entitled to vote, be as valid as if every such person had been duly appointed and was qualified and had continued to be a Director or a member of a committee appointed by the Directors and had been entitled to vote.

i) Dividends / Distributions

Although the Articles provide for a possible right (without the need for any declaration by the Directors or any other sanction unless otherwise provided by the Specific Terms and Conditions) for Shareholders to receive dividends, the Cell will not make dividend payments to Shareholders in respect of the Preference Shares. The Preference Shares do not confer a further right to participate in the profits of the Cell.

j) Transfer and Transmission of Shares

No Shares can be issued, allotted or transferred to any US Person or Prohibited Person. Any holder of any Shares intending to become a US Person or Prohibited Person must notify the Cell of such intention and a holder of any Shares in the Cell, prior to becoming a US Person or Prohibited Person must transfer his Shares to a person who is qualified under the Articles to hold such Shares.

If it comes to the notice of the Directors that any Shares are or become owned, directly or indirectly, by a US Person or a Prohibited Person the Directors are entitled to give a

notice ("**compulsory transfer notice**") to such person requiring the person to transfer his Preference Shares to a person (including an existing Member) who is qualified under the Articles to hold such Shares, at a price equal to the Net Asset Value per Preference Share of such Preference Shares as at the latest practical date (as determined by the Directors in their sole discretion) preceding the date of the relevant compulsory transfer notice; or if no purchaser of the Preference Shares at such price is found by the Cell at the time the Cell requires the transfer to be made, at the highest price that any purchaser found by the Cell is willing to pay for such Shares.

If a person who is served with a compulsory transfer notice does not transfer the Shares in accordance with the Articles within 30 days after the receipt of such compulsory transfer notice, he shall forfeit or be deemed to have forfeited his Shares in the Cell immediately upon the expiration of such 30 day period.

Subject to the Laws, the Directors have the power (but are not under any duty) to impose such other restrictions as they deem necessary for the purpose of ensuring that no Shares are acquired, held by or transferred to any US Person or Prohibited Person, or acquired or held by any person in breach of the law or requirement of any country or government authority.

The Directors, the Cell, and the duly authorised agents of the Cell (including the Registrar) shall not be liable to any Shareholder or otherwise for any loss incurred as a result of any US Person or Prohibited Person becoming a Member or the breach of any of the above provisions of the Articles. Any Member who breaches the provisions of the Articles or any restrictions imposed by the Directors pursuant to the Articles shall indemnify the Cell for any loss to the Cell caused by such breach.

All transfers of Preference Shares in uncertificated form shall be effected by means of CREST or any other applicable system which is operated by an Authorized Operator (as defined in the Companies (Uncertificated Securities) (Jersey) Order 1999).

Transfers of Shares in certificated form shall be effected by way of a notice (a "**Transfer Notice**"). The Transfer Notice can be in any usual or common form in use in Jersey or any form approved by the Directors and every Transfer Notice shall include the name and address of the transferor and the transferee. All Transfer Notices shall be signed by or on behalf of the transferor and, in the case of a partly paid Share, by the transferee. The transferor shall be deemed to remain the holder of the Share until the name of the transferee is entered on the Register.

In addition to the above the Directors may in their absolute discretion refuse to cause any transfer of partly paid Shares in certificated form to be registered by the Registrar, including, where:

- (i) such Shares are to be transferred to a person of whom they do not approve;
- (ii) the Cell has a lien over the Shares; and

- (iii) such Shares may (in the opinion of the Directors) be owned, directly or indirectly by a US Person or a Prohibited Person.

The Directors or the Registrar on behalf of the Directors may decline to recognise any Transfer Notice, unless:

- (a) the Transfer Notice is deposited at the office of the Registrar or such other place as the Directors may appoint for this purpose;
- (b) the Transfer Notice is accompanied by the certificate for the Shares to which it relates and such other evidence as the Directors (or, in the case of any Preference Share in certificated form, the Registrar or any other persons as may be required by the Directors) may reasonably require to show the right of the transferor to make the transfer; and
- (c) the Transfer Notice is in respect of only one class of Shares in certificated form.

If the Directors refuse to cause any transfer of Preference Shares in certificated form to be registered by the Registrar they shall, within two months after the date on which the Transfer Notice was lodged with the Registrar or the Cell, send to the proposed transferor and transferee notice of the refusal.

Subject to the Laws, the Registration of transfers of Shares may not be suspended by the Company or the Issuer.

k) Redemptions

Each fully paid Preference Share shall be redeemable in accordance with the Specific Terms and Conditions. Where the Specific Terms and Conditions do not provide otherwise, the Articles set out default redemption provisions, including but not limited to:

- (i) the fact that Preference Shares shall be redeemed at the Redemption Amount from the assets attributable to the Series Fund on the applicable Redemption Date. If on the Redemption Date the realised net assets attributable to the Series Fund are insufficient to pay in full the Redemption Amount payable to each Shareholder holding Preference Shares of that class: such assets shall be distributed equally among each such Shareholder of that class pro rata to the number of Preference Shares of that class held by the Shareholders; and no Shareholder of that class will have any claim against the Cell, the Company or any other protected cell in respect of any shortfall;
- (ii) if a Shareholder fails or refuses to accept the Redemption Amount for the Preference Share being redeemed, the Redemption Amount will be retained and held by the Cell on trust for the Shareholder, but without interest or further obligation; and

- (iii) upon redemption of a Preference Share the Cell will amend the Register such that the relevant Shareholder ceases to be the holder of such Preference Share and therefore the relevant Shareholder will cease to be entitled to any rights in respect of the Preference Share and the Preference Share will be cancelled.

l) Winding up

Subject to the Laws and any particular rights or limitations attached to any class of Shares, if the Cell is wound up, the assets available for distribution among the Members will be applied in respect of each class as follows:

- (i) first:
 - (1) after payment in full of the Cell's liquidation expenses (if any), the Redemption Amount payable in respect of each Preference Share and any dividends which under the Specific Terms and Conditions had become payable prior to the date of any such liquidation, dissolution or winding up, out of the net realised proceeds of the Series Fund attributable to the relevant Series of Preference Shares *pari passu* with other Shareholders of that class of Preference Shares pro rata to the number of Preference Shares held by all holders of Preference Shares of that class;
 - (2) if the Series comprises two or more classes of Preference Shares, the claims of the holders of Preference Shares of the relevant classes shall rank *pari passu* with each other; and
 - (3) in the event that the assets attributable to the Series Fund are insufficient, the net realised proceeds of the Series Fund will be distributed equally among each holder of Preference Shares of that class pro rata to the number of Preference Shares held by such Shareholder.
- (ii) second, repaying the holder of each Ordinary Share *pari passu* with other holders of Ordinary Shares of the Cell; and
- (iii) third, any surplus assets will be distributed *pari passu* among the holders of Ordinary Shares in proportion to the number of Ordinary Shares held as of the latest practicable date prior to the commencement of the winding up.

If the Cell is wound up, the Cell may, with the sanction of a Special Resolution and any other sanction required by the Laws, divide the whole or any part of the assets of the Cell among the Members in specie and the liquidator or, where there is no liquidator, the Directors, may, for that purpose, value any assets, and taking account of the priorities above, determine how the division will be carried out as between the Members. With the sanction of a Special Resolution and any other sanction required by the Laws, the Cell may vest the whole or any part of the assets in trustees upon such trusts for the benefit of the Members. But no Member shall be compelled to accept any assets upon which there is a liability.

No resolution may be proposed for adoption by the holders of the Ordinary Shares of the Cell providing for the liquidation, dissolution or winding up of the Cell, unless a majority of the Shareholders of each outstanding class of Preference Shares and any other outstanding preferred shares ranking *pari passu* with the Preference Shares as regards participation in profits or assets has approved such resolution. Such approval may only be given by the consent in writing of the holders of a majority of the Preference Shares of each outstanding class and such other preferred or preference shares or by a resolution passed by a majority of such holders at a meeting of the holders of each outstanding class of Preference Shares and of such other preferred or preference shares, present and voting at each such meeting.

m) Alteration of Share Capital

The Cell may, by altering its Memorandum of Association by Special Resolution, alter its share capital in any manner permitted by the Laws.

On establishment of the Cell on 24 July 2009, there were two Ordinary Shares in issue and no Preference Shares in issue. At the date of this Summary and Securities Note, there has been no change to the number of Ordinary Shares and Preference Shares in issue.

Disclosure of Interests

As of the date hereof and save as mentioned below, the Directors and the Cell are not aware of any persons who, following the expiration of the Offer Period, will be interested in 10 per cent. or more of the issued shares in the Cell carrying a right to vote at the general meetings of the Cell (i.e. the Ordinary Shares) other than Maser Trust which holds the two Ordinary Shares in the Company.

PART XII — FURTHER INFORMATION ABOUT THE RBS UK NAVIGATOR INDEX

The Index is a proprietary index of The Royal Bank of Scotland plc ("**RBS**") and is calculated by The Royal Bank of Scotland N.V. ("**RBS N.V.**").

The Index objective is to track a risk-stabilised, dynamic long-short investment strategy which is linked to the ER Asset.

The dynamic long-short investment strategy means a strategy that can have either a notionally long or short position in the ER Asset at a particular point in time, but not both simultaneously. If the investment strategy has a long position, the level of the Index will increase if the ER Asset rises in value and decrease if the ER Asset falls in value. If the investment strategy has a short position, the level of the Index will increase if the ER Asset falls and decrease if the ER Asset rises.

The ER Asset is a strategy calculated by RBS N.V. which aims to track a dynamic algorithm linked to a rolling investment in front-month futures contracts which are (a) future controls referencing the FTSE 100 Index; (b) traded on the NYSE Liffe Exchange and London Stock Exchange and (c) denominated in GBP.

On each monthly trend observation date, the investment strategy compares the level of the ER Asset at the valuation time ("**ER Closing Price**") to its monthly average price over the preceding 12 months ("**Moving Average Twelve**") to determine market trend, and the Moving Average Twelve to the monthly average price over the preceding 3 months ("**Moving Average Three**") to determine the strength of the market trend.

If the ER Closing Price on such trend observation date is equal to, or greater than, the Moving Average Twelve, then the market trend is deemed to be positive and the Index shall have a positive economic exposure to the ER Asset for the subsequent month. If the ER Closing Price on a trend observation date is lower than the Moving Average Twelve, then the market trend is deemed to be negative and the Index shall have a negative economic exposure to the ER Asset for the subsequent month.

If the market trend is positive and the Moving Average Three is equal to, or greater than, the Moving Average Twelve, then the long-exposure of the Index to the ER Asset will be 125%. If the Moving Average Three is less than the Moving Average Twelve, the long-exposure will be 75%. If the market trend is negative and the Moving Average Three is less than the Moving Average Twelve, then the short-exposure of the Index to the ER Asset will be 125%. If the Moving Average Three is more than the Moving Average Twelve, the short-exposure will be 75%.

One of the Index's features, the risk stabilising technique, is to protect against the effects of volatility. Volatility is a measure of the amount by which the price of an asset changes over a period. The greater the magnitude of the price movements, the higher the volatility. The Index invests in the strategy using a dynamic participation that is adjusted on a daily basis in order to stabilise the volatility of the Index. The dynamic participation will vary between 0% and 100% and shall be dependent on the realised volatility of the ER Asset. If the level of the

realised volatility increases above a certain level, the dynamic participation in the ER Asset will be decreased and if the realised volatility decreases below a certain level, the dynamic participation in the ER Asset will be increased. The Index aims to realise a target volatility of less than 12% annualised.

Information about the past performance of the Index can be obtained on Bloomberg page RBSDTUG1 Index.

A copy of the Index rules relating to the Index (which, for the avoidance of doubt, do not form part of this Index description) will be available for review for the duration of the Offer Period at the registered office of the Company and from the Opening Date to the Redemption Date upon request at the offices of the Index Calculation Agent. Investors should note that this description of the Index rules is subject to the detailed provisions of the Index rules. In order to obtain the Index rules, an investor may need to give certain non-disclosure representations to the Index Sponsor.

Investors should note that the Index rules are subject to change from time to time. In certain circumstances, the Index Sponsor can change the method of calculating the Index, or may discontinue or suspend calculation or dissemination of the Index which could affect the Redemption Amount.
